INNOVATION EXPO

INTRODUCTION & CONTEXT

The Innovation Expo is positioned as the dynamic core of the City Bank Presents Innoverse Bangladesh: National Science & Tech Carnival. It is explicitly designed to be the nation's premier platform for technological display & discourse. This segment shifts the focus from competitive testing to real-world application, showcasing how young Bangladeshi innovators are tackling pressing societal and industrial challenges. This prestigious platform will feature only the Top 30 science and technology projects from across the nation, ensuring the highest standard of exhibited innovation, and serves as the evaluation ground for the coveted **Shaheed Tanvin Innovation Award**.

OBJECTIVES & OPPORTUNITIES

The Expo is meticulously structured to ensure maximum exposure and strategic opportunity for every invited team. The primary objectives are to provide unparalleled **visibility to policymakers and industry leaders**, facilitate direct collaboration and networking with venture capitalists and mentors, and foster knowledge exchange to inspire future innovators. By participating, teams gain the opportunity to secure crucial feedback, **attract potential investment, and compete for the highest recognition at the carnival**. This platform is essential for securing the necessary partnerships and resources required to scale an innovation from a **prototype into a national solution**.

SHAHEED TANVIN INNOVATION AWARD

PRIZEPOOL: 150K BDT

Shaheed Tanvin Innovation Award represents the highest recognition within the Innovation Expo, celebrating the most exceptional project that embodies creativity, technological innovation, and real world applicability. Among the 30 shortlisted projects exhibited at the Expo, this prestigious honor will be presented to the most impactful innovations that demonstrates excellence in research, originality, and execution.

The award is dedicated to Shaheed Jahiduzzaman Tanvin, a 29 year old IUT graduate and engineer who was the CTO of ANTS Aerial System. He was **martyred during the July 2024 Mass Uprising**, leaving behind a legacy of courage, intellect, and an unyielding passion for innovation. To honor his memory and contribution to Bangladesh's technological and democratic spirit, the award was established in his name as a symbol of visionary perseverance and national pride.

A distinguished panel of academicians, industry experts, and policymakers will evaluate all participating projects based on Innovation & Novelty, Technical Merit, Feasibility & Scalability, and Impact. The Shaheed Tanvin Innovation Award, announced at the closing ceremony, will honor the **top three innovations with monetary prizes worth BDT 50,000**, alongside an exclusive crest and certificate of excellence, celebrating not only technological brilliance but also the indomitable spirit of a true national hero.

PARTICIPANTS' CREDENTIALS

The Innovation Expo will feature 30 selected science and technology projects from across Bangladesh, chosen after thorough review and verification by the Innoverse Bangladesh team. These projects represent the **nation's most promising innovations**, developed by the students of Bangladesh working at the forefront of scientific and technological advancement.

EVALUATION CRITERIA

Each project will be evaluated by a distinguished panel of academicians, industry professionals, and policymakers based on the following key parameters:

- **Innovation & Novelty** – Creativity, originality, and uniqueness of the concept.
- **Technical Merit** – Depth of research, methodology, and technical accuracy.
- **Feasibility & Scalability** – Potential for real-world application, sustainability, and expansion.
- **Impact** – Ability to address societal or industrial challenges and contribute to advancement.

STRUCTURE & FLOW

Project Showcase Stalls:

Participating teams will exhibit their projects at dedicated stalls, engaging with visitors to demonstrate the innovation's concept, functionality, and real life application.

Evaluation & Selection:

A panel of expert judges will visit each stall, interact with the teams, and evaluate the projects based on predefined criteria. The cumulative scores will determine the top three innovations to be recognized.

Shaheed Tanvin Innovation Award:

The Shaheed Tanvin Innovation Award will honor the **best three projects** with:

- 🏆 50K BDT Prize-money each winner
- 📜 Honorary Certificate of Achievement
- 🏅 Crest of Honor

THANK YOU!
